## SPECIAL KEYBOARD FUNCTIONS

### Keylock / Clean Mode:

To activate or deactivate the clean mode, hold this key  down for 2 seconds. This deactivates the key function and the touchpad. You can then clean the keyboard without triggering any incorrect commands.

### Touchpad-Tapping:

Touchpad tapping allows you to use different functions by typing the touchpad surface once or several times (e.g. in word processing: single tap to position the cursor, double tap to select paragraphs)

You can find operating instructions and hints on cleaning and disinfecting at:
