## Introduction

IPS618-4POE is an industrial grade, managed and redundancy Ethernet switch. The switch provides 8 ports 10/100M Ethernet and 4 ports 10/100M Ethernet PoE, which 4 ports Ethernet supports POE function (IEEE 802.3af/at). It provided some kinds of advanced network managed function, like as: SW-Ring redundancy ring

network, VLAN, Trunking, Quality of Service, Speed control, port mirroring and fault alarm. SW-Ring can bring your Ethernet to intelligent redundancy. The -40~75°C working temperature, can meet all kinds of Industrial environment requirement and provide the solution of the economy.
